

WELLBEING OR WELNESS NEAR RIGA

Wellbeing or wellness means a "physical and mental well-being, healthiness which is deliberately created by a special set of services". Wellbeing as a concept of holistic health originated USA in the 1950s of the 20th century, as doctors used the English words well-being, fitness and happiness. It is represented by concerns about one's physical health and mental well-being, beauty care and the quest for personality growth typical of post-modern times: meditation, spiritual practice, yoga, etc. Pieriga municipalities have a wide offer of tourism products in this area of recreation, which has developed according to the demand of the local community.
